A BRIEF HISTORY

Jacob's Pillow is a National Historic Landmark located in the town of Becket, Massachusetts, in the Berkshires. As a home for dance in the United States, it encompasses an internationally acclaimed summer dance festival (the first and longest-running in the United States), a professional school, rare and extensive archives, an intern program, and year-round community programs.

The Pillow, as it is affectionately known, was first settled in 1790 by the Carter family as a mountaintop farm at the crest of a twisting, climbing stagecoach road between Boston and Albany. Local folk viewing the zigzagging road from the bottom of the hill thought it resembled the rungs of a ladder, so these biblically-minded New Englanders named it "Jacob's Ladder." Boulders dotted the farm pastures, among them a curiously-shaped one located behind the Carter's farmhouse. The family knew well the story from the Book of Genesis, which tells of Jacob laying his head upon a rock and dreaming of a ladder to heaven. Given the rock "pillow," and the farm's proximity to "Jacob's Ladder," the farm from then on was known as "Jacob's Pillow."

In 1931, modern dance pioneer Ted Shawn bought the farm as a retreat. Shawn had long harbored a dream of legitimizing dance in America as an honorable career for men. In 1933, he recruited eight men, including Barton Mumaw and several physical education students from Springfield College for his new company. In July 1933, Shawn and his Men Dancers started giving public "Tea Lecture Demonstrations" to promote their work—and to pay the grocer. The first audience of 45 curiosity-seekers expanded weekly so that by summer's end, people were being turned away at the door.

On July 9, 1942, the Ted Shawn Theatre, the first theatre in the United States designed specifically for dance, opened its doors. The Ted Shawn Theatre is a proscenium house with a seating capacity of 620. The theatre was designed by Joseph Franz and was renovated in 1992. The theatre is built of hand-hewn lumber from the surrounding area. Seating is available for persons with disabilities. A unique feature of the theatre is a back wall that can open to expose the woods beyond. Inside the theatre on either side of the stage are life-size portraits of Shawn in his Hopi Indian Eagle Dance and Ruth St. Denis as Kwannon—the Japanese Goddess of Mercy, painted during the Denishawn era by Albert Herter. Visit our website at www.jacobspillow.org to see additional photos of the theatre.

POLICIES

This is a list of house rules or guidelines to avoid any confusion while you are here. Please bear in mind that these guidelines are to help us keep the theatre in good condition from an aesthetic and a practical point of view. We thank you in advance for your cooperation in complying with them. If you have any questions about the rules please don't hesitate to call.

1. All production equipment that is owned or leased by Jacob's Pillow Dance Festival must be operated by Jacob's Pillow Dance Festival personnel. This includes our lighting and sound control consoles.
2. Food and Beverages are not permitted on the stage, in the auditorium, or in the dressing rooms. Jacob's Pillow provides coolers with iced water on both sides of the stage as well as in the Bakalar Studio.
3. No open flame is allowed in any of our buildings at any time, including all theatres and dressing rooms.
4. Smoking is prohibited in all buildings. This rule, which complies with Massachusetts state law, will be enforced by our staff. Please inform any smokers of this in advance of your arrival to avoid any misunderstandings.
5. Jacob's Pillow cannot allow the use of burning chemicals to create smoke effects such as Zee smoke, smoke cookies, or salimoneac. Occupational Safety and Health Administration (OSHA) has determined these products to be hazardous and all U.S. performing affiliations have banned their use. To that end, we recommend using DF50's, MDG Atmospheric, or Rosco fog for any necessary smoke effects.
6. To comply with local, state, and federal regulations all scenery, decorative material, and soft goods used in the theatre must be flameproofed. A flame proofing certificate must accompany each flame proofed item. The flame proofing must be done by a person holding a Certificate of Fitness for Flame proofing. We must receive all the certificates no later than seven days prior to your load-in. If the letters are not here at that time scenery will not be permitted into the building.
7. Please exercise caution when bringing personal valuables to the theatre. We have a limited ability to provide secure storage for personal property, and are not responsible should your personal property be lost or stolen. Please contact the Ted Shawn Theatre Associate Production Manager to arrange for safe keeping of any company equipment.
8. Bear in mind that your company's use of the theatre is limited to the stage, backstage and dressing room areas. You may not use the lobby, production offices, or any administrative offices without written permission from the Director of Operations and Production. No decorations, paintings, or scenery may be displayed in the theatre, auditorium, or lobby areas. For insurance reasons we cannot allow you to hang any scenery or decorations from the theatre catwalks or the proscenium wall.
9. Only authorized personnel will be allowed back stage. This includes the Jacob's Pillow technical staff, and visiting company members. Due to limited space, for your safety and ours, friends or family members watching from backstage is prohibited.

10. Jacob's Pillow Production Staff members are the only authorized personnel allowed in the lighting and sound booths. Company members are asked not to visit the booth. We request that your Stage Manager call the show from the SM desk downstage left. There is a video monitor with a full frontal view of the stage. If your stage manager absolutely must call from front of house, you must designate an assistant to be on stage for company calls and piece set ups.
11. The Crew takes breaks half way through each 4-hour call. The morning break is from 11:00am to 11:15am. Lunch break is from 1:00pm to 2:00pm. The afternoon break is from 4:00pm to 4:15pm. Dinner break is from 6:00pm to 7:00pm. Prior to all matinee performances, the Crew lunch break is from 12:00pm to 1:00pm. Please see the [Schedule section](#) for more details.
12. The Crew begins work for any performance one hour before curtain time. The Crew needs approximately 30 minutes to sweep, mop the stage, and check all lighting and sound equipment used in your performance. We ask that the stage be free of performers during this time so we can efficiently prepare the stage for your performance. The Bakalar Studio, adjacent to the theatre will be available for your use during this time. As soon as the stage is ready we will inform your Stage Manager and the dancers may return to the stage. We will close the Main Curtain and open the House thirty (30) minutes prior to curtain. At this point the performers may continue to quietly warm up on stage behind the main curtain while the house is open. The Bakalar Studio will also be available.
13. The running Crew consists of the Ted Shawn Theatre Associate Production Manager and five Crew members. Crew duties include a light board operator, sound operator, and three deck hands. The three deck hands will be assigned to color changes, props, wardrobe, flyrail, etc. Please notify the Associate Production Manager if follow spots are required as additional staffing may be needed and can only be made available with advance notice.
14. All video taping (professional or "friends") of performances must be approved by the Director of Production. In addition, all positions for tapings must be approved by the Director of Production. There can be no video or still pictures taken from on stage during any performance or rehearsal.
15. Pre-show announcements pertaining to cast or program changes are NOT allowed at the Jacob's Pillow. These changes can be communicated through program inserts or signs in the lobby and will need to be coordinated through the Associate Production Manager and the Marketing Department.
16. There is a house dormer fan that we must use to keep the theatre somewhat cool. It goes on after the pre show speech. It does make noise - so we may want to set two different sound levels - one for when it is on and one for when it is off. The use of the dormer fan during rehearsals and performances will be determined by The Ted Shawn Theatre Associate Production Manager.
17. All company equipment and belongings must be removed from the theatre during the strike and load-out following your final performance. You may not leave items to be picked up following your departure.

SCHEDULE – TED SHAWN THEATRE

Due to the large volume of people at the Pillow on any given day it's very important to adhere to our schedule. The Ted Shawn Theatre and all necessary personnel will be available to begin Load-In at 9:00am the day prior to your first performance. A fifteen (15) minute Crew break is required every two hours with a one (1) hour meal break at Jacob's Pillow Dance Festival's scheduled lunch and dinner times. Break and meal times cannot be changed. Load-Out will begin immediately following the final curtain of the final performance. All property brought into the theater must be removed at that time. All production schedules must be approved by Jacob's Pillow Dance Festival's Director of Operations and Production. Please submit scheduling requests at least six (6) weeks in advance of Load-In. To ensure that all technical and logistical elements are worked out, Jacob's Pillow Dance Festival requires that a complete run-through with dancers, crew, and all technical elements takes place prior to the opening performance.

MONDAY

Day Off

There is no crew available, and all theatres are closed. No access is allowed. Studio space may be available for your use if needed. Please inquire as soon as possible since all of our studios are booked extensively.

TUESDAY

Load-In

The Tuesday Load-In crew typically consists of the Ted Shawn Theatre Associate Production Manager, Lighting Supervisor, Sound/Video Supervisor, Wardrobe Supervisor, one apprentice, and five crew members.

9:00am

Theatre open, work begins.
Unload your truck into stage, storage or house as needed.
Begin assembly of any scenic elements.
Begin focus.

11:00am

All work stops / Crew coffee break for fifteen minutes

11:15am

Resume work

1:00pm

All work stops / Crew lunch break for one hour

2:00pm

Resume work

4:00pm

All work stops / Crew coffee break for fifteen minutes

Dimmer check, sound check, sweep and mop stage, and set soft goods

1:30pm Half Hour / Main curtain in
Dancers may return to the stage
Crew continues preparation for show as needed

2:00pm PERFORMANCE #6 CURTAIN

Strike and load-out follow the final curtain.

SCHEDULE – BAKALAR STUDIO

The Bakalar Studio is a rehearsal studio space adjacent to the Ted Shawn Theatre. The room is equipped with a 40'-0" (12.19m) wide x 28'-0" (8.53m) deep black Harlequin Marley dance floor; barres built into the perimeter of the room; a four (4) speaker stereo sound system with CD player and auxiliary input; and, a wall of mirrors. The Studio shares four (4) portable barres and a Black Steinway 7' Grand piano with the Ted Shawn Theatre. A separate portion of the Studio is also used to store your company freight and thus may be in use by the technical staff throughout the Load-In process. The amount of freight you bring may impact the amount of studio space you will have access to, but we will make efforts to keep the Marley dance floor clear of freight. All attempts are made for this space to be available at all times, but specific scheduling is subject to approval of Jacob's Pillow Dance Festival's Director of Operations and Production.

MONDAY

9:00am - 10:00pm The Studio can be made available upon request. Please let us know if you would like to use the space for rehearsal at least six (6) weeks prior to your company arrival. Please note, the Production Staff does not work on Mondays and the Ted Shawn Theatre is closed. No access to the stage or to the dressing rooms will be allowed.

TUESDAY

9am - 10:00pm The Studio is available for company use, but please note that the studio is also used to store your freight. The technical staff will be in and out of the room throughout the day.

WEDNESDAY

9am - 3:30pm Studio available for company use.
3:30 - 5:00pm Studio not available - Jacob's Pillow Educational Program
5:00 - 10:00pm Studio available for company use.

THURSDAY

9:00am - 5:00pm Studio available for company use.
5:00 - 7:30pm Studio not available - Jacob's Pillow Educational Program
7:30 - 10:00pm Studio available for company use.

FRIDAY

9am - 10:00pm Studio available for company use.

SATURDAY

9am - Intermission Studio available for company use.
Intermission Studio not available - Setup begins for cast party
Post Show Cast Party

SUNDAY

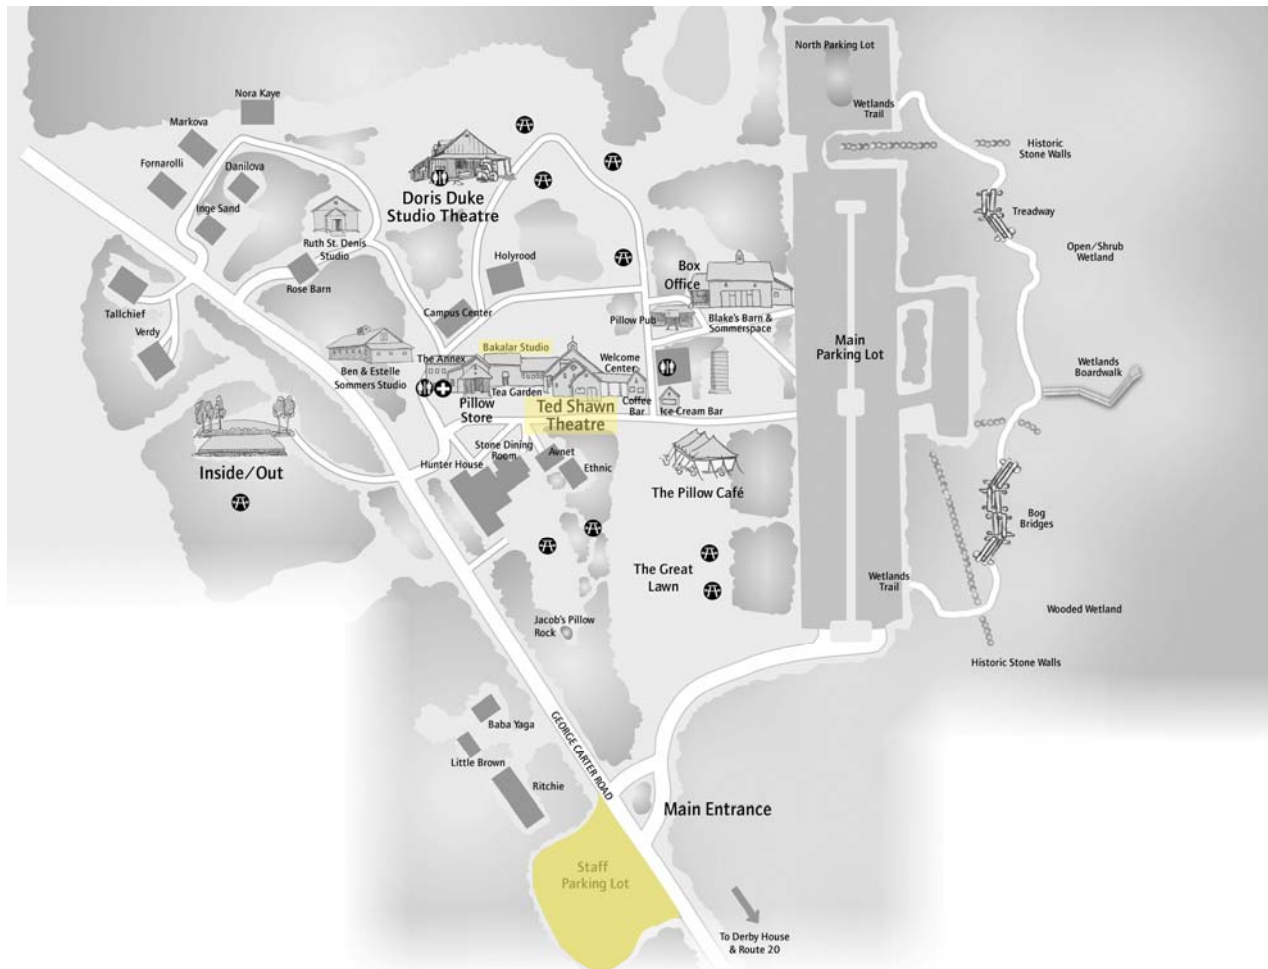

9am - final curtain Studio available for company use.
Post Show Studio not available - In use for Company Load Out

CLIMATE CONTROL

Due to the nature of the theater and historic site, Jacob's Pillow Dance Festival has limited ability to maintain a prescribed temperature within the Ted Shawn Theatre. Performances will not be canceled or artist relieved of any obligations to perform due to temperature conditions. Jacob's Pillow Dance Festival retains the right to ventilate the theater by means other than air conditioning to keep the temperature at as comfortable a level as weather will permit at the sole discretion of the presenter's representatives. Space heaters and fans are provided in each dressing room. Additional temperature control devices may be requested from the Ted Shawn Theatre Associate Production Manager.

PARKING

Parking is permitted behind the theater at the loading dock for loading/unloading only. All vehicles; including cars, vans, buses, and trucks must be moved to the Staff Parking Lot at all other times. Arrangements can be made for alternative truck parking if needed. Please inquire about authorized parking locations upon arrival.

STAGE SPECIFICATIONS

Proscenium Opening: 40' wide x 17'-6" high (12.19m x 5.33m)

Stage Width: Hard masking legs create 40' (12.19m) opening
Center line to SL wall - 32' (9.75m)
Center line to SR wall - 36' (10.97m)
*Structural wooden posts are located 26' (7.92m) left and right of centerline, 7' (2.13m) and 19'-6" (5.94m) upstage of plaster line.

Stage Depth: Plaster line to US wall - 33' (10.05m)
Plaster line to scrim - 27' (8.23m)

Grid Height: THERE IS NO GRID. Roof is pitched down from centerline.
Borders, legs, and electrics are dead-hung.

Rigging: Lines can be rigged off roof structure, however this is very time consuming. Please note that it is impossible to counterweight any rigged line as the roof is pitched and the "head block" beam is located 6' (1.83m) onstage of the pin rail. Pin rail is stage left, 12' (3.65m) above the deck. Repertory soft goods are hung on working line sets. These can be flown in, bundled to the batten or swapped out, but cannot be flown off the deck or out of sightlines as there is no overhead clearance. The upstage traveler is dead hung. Each Lineset is has a maximum safe working load of 5,000lbs evenly distributed weight, and a maximum load of 500lbs in a live flying application.

**Please inquire before proposing any scenic plans.*

Repertory

Soft Goods: House Curtain: Blue velour traveler (operates manually from stage left)
Borders & Legs: 5 permanent black borders 5'h x 40'w (1.52m x 12.19m)
4 pairs of black legs 18'h x 8'w (5.49m x 2.44m)
*Legs and borders are covered with black duvetyn, stretched flat,
without fullness, and are permanent.
Black Scrim: 20'-0" (6.10 m) high x 46'-0" (14.02m) wide, seamless
Black Traveler: 21'-0" (6.40m) high x 46'-0" (14.02m) wide, black velour
(Operates manually from stage left)
Cyclorama: 19'-6" (5.94 m) high x 45'-0" (13.71m) wide, seamless,
natural muslin
Bounce: 19'-6" (5.94 m) high x 45'-0" (13.71m) wide

Other Soft Goods: White Scrim: 20'-0" (6.10 m) high x 46'-0" (14.02m) wide, seamless

Stage Floor: Stage floor is a blonde, natural finish maple surface over a wooden substructure.
No tacks, screws, or nails may be used on the stage.

A black/white Harlequin Reversible vinyl floor is available and generally in place. A black Harlequin Cascade floor is also available and is best for ballet. Rosin may **only** be sparingly used on the Cascade floor if absolutely necessary. The use of rosin must be approved by the Associate Production Manager prior to use.

- Upstage Crossover:** Please note that the crossover is located outside of the theatre space. The access doors to the crossover are approximately 34' (10.36m) left and right of the centerline on the upstage wall. A temporary covering is installed for inclement weather. Every effort is made to ensure that dancers are protected from the elements at all times.
- Loading Door:** The loading door is located mid-stage right on the side wall. Loading doorway is 8'-0" (2.44m) wide by 9'-0" (2.74m) high. The loading dock is 10'-0" (3.05m) wide by 8'-0" (2.44m) deep and is 3'-0" (0.91m) above ground. Vehicles are only allowed on-campus for loading and unloading. All vehicles need to be parked in the Staff Parking Lot at all other times.
- Orchestra Facilities:** THERE IS NO ORCHESTRA PIT. Seats house left and house right can be removed and replaced with platforms if needed, and is subject to availability based on program and ticketing. The platforms are approximately 8' (2.44m) wide by 8' (2.44m) deep. If the orchestra pit platforms are needed please contact Jacob's Pillow Dance Festival's Director of Operations and Production immediately. The removal of house seats must be agreed upon when the contract is executed.
- Company Office:** There is a room stage right that may also be used for dressing room space or as a company production office. This room has its own restroom equipped with toilet, sink, and shower. This room also has Internet connections and can accommodate 6 people.

PIPE SCHEDULE

Unless otherwise noted, all pipes are dead hung and cannot move.

**Pipes that fly in to deck cannot be counterweighted.

**Border trims are from bottom of border, all other trims to pipe.

Pipe	Rep Use	Distance from PL	Distance from PL (metric)	Trim	Trim (metric)	Notes

LIGHTING SPECIFICATIONS

Jacob's Pillow provides a Festival Lighting Plot that strives to serve the needs of ten companies in ten busy weeks. We are happy to make changes and additions to the festival light plot within reason, but all additions and changes must be approved by the Director of Production and Festival Lighting Supervisor. Jacob's Pillow cannot be financially responsible for any rental costs for additional equipment. The festival has a number of spare units for adding on a per-show basis, a full list of which can be found on the Jacob's Pillow Website. If your production requires equipment beyond this list, we can provide you with a quote from our local rental house, but we cannot take on the cost of renting extra lights or accessories.

Control: ETC Obsession 600
Located in the production booth at the rear of the auditorium

Remote monitors are available in the house at the production table during technical rehearsals, and backstage at the Stage Manager's console located downstage left during performances.

Dimmers: Strand CD 80
1-216 @ 1.2 kW
217-252@2.4 kW

Dimmers 1-234 are dedicated to the repertory plot and will not be unpatched or altered. Dimmers 235-252 are available for spare equipment, and are 2.4 kW (dimmers). The dimmers are located offstage left in a loft, 8' (2.44m) above the deck.

Rep Light Plot: Due to the nature of this festival and schedule demands, the Ted Shawn Theatre uses a Repertory Light Plot. It consists of approximately 275 units, most of which are assigned one dimmer per circuit. Lighting positions exist from front of house, on-stage with overhead electrics, and booms and ladders to provide side light. Please reference the Repertory Light Plot for specific lighting locations.

*All proposed plot modifications must be submitted in writing no later than six weeks prior to your load-in.

Spare Instruments: Spare units are a mixture of Source Four PARs and ERS with a variety of lenses, all lamped at 575 Watts each. All ERS units have template slots. Please visit our website for an up to date list of spare inventory.

Color Media: The visiting company must supply all color media. Jacob's Pillow can purchase color for your show and have it prepped for your arrival on site. We will charge back all color to your company at final settlement. If you would like us to purchase color for your company, please fill out the attached spreadsheet and fax a signed copy to the Lighting Supervisor no less than three weeks before your arrival. As a reminder, Jacob's Pillow can not take on costs associated with extra rentals or purchases, so all color will be billed to your company.

Special Effects:

Two Neutron Pro Hazers are in shared inventory between the two theaters of the Festival. Please secure the availability of these hazers while finalizing light plot modifications. All atmospheric generators including hazers, smoke machines, foggers, and dry ice foggers must be pre-approved by Jacob's Pillow Dance Festival's Director of Operations and Production. Additionally the company will incur all costs associated with rental of any atmospheric generators not owned by Jacob's Pillow Dance Festival. Open flame is not permitted in the Ted Shawn Theatre or in any other buildings owned or operated by Jacob's Pillow Dance Festival.

SOUND SPECIFICATIONS

Sound system is rented on a seasonal basis.

System specs are subject to change.

Please inquire if you have any specific concerns.

- Console:** Allen and Heath GL 2400 32 channel sound console
