## 2024 Sponsorship

*"Getting to experience so many arts forms either in class or on the stage was really beneficial to me as a dancer."  
2023 Tap Dancer*

With approximately 100 dancers accepted into The School each year, Sponsorship is an investment in the future generation of dance artists and ensures The School can welcome emerging dancers at a critical time in their development with necessary financial support. Without it, many of them would miss out on key opportunities to make valuable connections and growth to further them in their careers. The impact of your generosity endures for their lifetime.

A School Sponsor may choose to be paired with a dancer or a particular program, and there are many opportunities to meet and observe the dancers at the Festival and virtually. Many Sponsors create lifelong bonds with the dancers and follow their career trajectories. School Sponsorship is considered a benefit, among several, of membership in the Ted Shawn Circle.
